Included in this list would be a mixture of referees who may only be available on a limited basis together with referees who have recently been placed on the level 1C list – i.e. first/second season on the list.</p> <p>To gain promotion to the B list, in the previous season they must have officiated, if requested, in 2 "key events" and accepted at least 75% of published appointments.</p> <p>No one would be relegated from a list after one season of not meeting the criteria. This would make due allowance for injury, work commitments, taking a period out of the sport etc. However, if the period of inactivity lasts for two seasons then relegation to the 1C group would take place.</p>
